

ALL THAT IS BLACK

IS NOT BEAUTIFUL

Mayor Gibson ran on a platform of creating a unified and better Newark. Now almost a year later, Newark is neither unified nor better.

1. The city is more racially polarized than before the 1967 riots.
2. Mayor Gibson has allowed the teacher strike to drag on for more than eight weeks. He stated publicly that he had a plan that would end the strike but, the board of education (appointed by the Mayor) refused to accept his proposals.
3. He has allowed a band of hoodlums masquerading as "the community" to take over the city's school system.
4. He has failed to serve the needs of the community in any way.

We didn't expect the mayor to change things in Newark overnight but, we did think that after a year he would have made some steps in the right direction. He hasn't thus far and it seems very unlikely that he will.

Join the campaign to recall Mayor Gibson. Elect a mayor that is responsive to the needs of the people of Newark.
